

Tracks:	Clinical ●	Biological ●	Early Intervention ●	Experts by Experience ●	Treatment ●
Legend:	Pre-Conference International Satellite	Pre-Conference ISBD Courses **Kindly note ISBD Courses are subject to pre-registration at an additional fee.	Industry Satellite Symposium - <i>Not CME Accredited</i>	Keynote Lecures	Poster Session
	Parallel Symposium	Rapid Communication Session	Brainstorming Session	Opening and Awards Ceremony	Membership Sessions\ Special Sessions

ISBD 2018 - Mexico

Time	Wednesday, March 7, 2018			
	Terraza Virreyes 3	Arco Iris	Camelias	Jardín
8:00	Registration Opens			
9:00		A clinical approach to suicide prevention in bipolar disorder: a case-based discussion guided by the literature Ticket Required	Clinical translation of evidence-based medicine in bipolar disorder Ticket Required	
12:00		Break		
13:00		Comprehensive Review of New 2018 CANMAT and ISBD guidelines: Supporting Evidence-based Treatment of Bipolar Disorders Ticket Required	Essential guide to lithium treatment in bipolar disorders: a practical course Ticket Required	Cómo investigar (y publicar) desde América Latina ... y sobrevivir al intento (Course in Spanish) Ticket Required
14:00				
16:15	Short Break			
16:30	Opening and Awards Ceremony			
17:45	Opening Keynote 1 *Simultaneous translation to Spanish			
18:30	Welcome Reception in the Exhibition			

Time	Thursday, March 8, 2018					
	Terraza Virreyes 3	Salon Girasoles	Arco Iris - Camelias	Jardín	Oaxaca	Molino Del Rev A
7:30			Spreading evidence-based interventions to resource-challenged settings: brainstorming global implementation strategies	A patient's perspective: from treating an illness to improving health	Innovative models to explore systemic abnormalities in bipolar disorder	
8:30	Isbd targeting cognition task force recommendations for the methodology of cognition trials and clinical assessments of cognition in bipolar disorder	Mood stabilizer response in Mexican bipolar disorder patients: genetics and chronotype	Key findings and next actions from the isbd child task force summary report: epidemiology and assessment, pharmacological and psychosocial treatment, and neuroimaging and biomarkers	Samuel Gershon Award Presentations	Rapid Communication 1	
10:00	Mid-Morning Break					
10:30	10:30: Keynote 2 11:15: Keynote 3 <i>*Simultaneous translation to Spanish</i>					
12:00	New insights in staging models for bipolar disorder with emphasis on early development, episode recurrence, and functional impairment.	Functioning in bipolar disorder: why does it matter? which factors affect it? what can we do to improve it ?	The role of epigenetics in early-life stress and the risk of bipolar disorder	Split treatment in bipolar disorder: enhancing communication between the psychopharmacologist and the therapist	Mitochondrial dysfunction in bipolar disorder: evidence, pathophysiology and translational implications	
13:30	Break					
13:45	Plenary Industry Satellite Symposium					
15:15	Break					
15:30	Sleep and circadian pathways in bipolar disorder: new evidence for predictive and clinically important associations <i>*Simultaneous translation to Spanish</i>	Clinical Cases: Adult	Young people at risk of bipolar disorder: a symposium from the post taskforce	Mental health professionals suffering from bipolar disorders: the other side of the coin	Rapid Communication 2	
17:00	Poster Session I in the Poster Hall					
18:30 - 20:00						ISBD Membership Meeting

Time	Friday , March 9, 2018					Monterrey
	Terraza Virreyes 3	Salon Girasoles	Arco Iris - Camelias	Jardín	Oaxaca	
8:30	Big data and personalized care in bipolar disorder: recent findings and future perspectives	New canmat and isbd guidelines for management of patients with bipolar disorders	Cognitive subgroups in bipolar disorder and at high-risk individuals: investigating the effect of cognitive heterogeneity on longitudinal outcome and diagnostic specificity	Sexual reproductive health in women with bipolar disorder: a clinical and patient perspective.	Rapid Communication 3	
10:00	Mid-Morning Break					
10:30	10:30: Keynote 4 11:15: Keynote 5 <i>*Simulations translation to Spanish</i>					
12:00	The offspring of bipolar patients: study methods and results	Socio-demographic and clinical differences between bipolar 1 and 2 disorder and implications for treatment	Technology-mediated interventions for bipolar disorder: what works, and where to next?	Consumer engagement in research: lessons learned from three RCTs	Novel Biomarkers for Bipolar Disorder	
13:30	Break					Women's Initiative Luncheon <i>Pre-registration required. Visit ISBD booth by 12:00 Friday to register</i>
15:30	Psychosocial aspects of cognitive dysfunction in bipolar disorder	Clinical Cases: Pediatric	Controversies in the diagnosis and progression of mood disorders: unipolar vs bipolar depression.	Sleep-wake regulation in bipolar disorder	Rapid Communication 4	
17:00	Poster Session 2 in the Poster Hall					

Time	Saturday , March 10, 2018					
	Terraza Virreyes 3	Salon Girasoles	Arco Iris - Camelias	Jardín	Oaxaca	Monterrey
7:30			Can nonlinearity inform our clinical practice? : taking a closer look at mood variability and clinical course in bipolar disorder ●	Epidemiological and clinical variables related with the predominant polarity on bipolar disorder: clinical implications. ●	Familial transmission of multi-system vulnerabilities in BD ●	
8:30	The science and practice of measuring lithium response: from bench to bedside ●	Precision psychiatry and biomarkers: a new paradigm for pharmacological treatments in bipolar disorder ●	Monet, Khalo and Van Gogh, their art and mental illness ●	Improving treatment for people with bipolar disorder: what we can learn from emerging research and lived experience ●	Genetic and imaging markers of risk and resilience to bipolar disorder ●	
10:00	Mid-Morning Break					Advocacy Day 10:00-11:15
10:30	Keynote 6 (Advocacy) <i>*Simulations translation to Spanish</i>					
11:15	Keynote 7 (Advocacy) <i>*Simulations translation to Spanish</i>					
12:00	Systematic studies of illness trajectories and the evolution of bipolar disorders ●	Predictors of lithium treatment response ●	The impact of parental and familial factors on the onset of mood disorders in offspring ●	Lithium: breaking the gap of evidence to the clinic. ●	Targeting mitochondria in bipolar disorder: brain bioenergetics and photobiomodulation ●	Advocacy Day Cont. 12:00-13:15 <i>*Simultaneous translation to Spanish</i>
13:30	Adjourn
